

Promat is a leading supplier of Passive Fire Protection materials and we have pioneered the development of products that protect lives and livelihoods for over 50 years. Our employees are our principal asset and we invest in them for the long term. We are committed to the principles of good communication, training, health and safety and fair reward.

We are currently looking to recruit a Glass Lead Operator to join us at our Heywood site to assist the Glass shift manager with the day to day operations of the workshop including all operational activities and production scheduling and logistics scheduling.

Allocating work on a day to day basis in accordance with the scheduled work, you will be accountable for the production planning of all glass workshop activities; ensuring that relevant job information is compiled, accurate and complete. You must also assist with the weekly logistics schedule and the liaison between customer fulfilment and production.

With previous lead operator experience and good communication skills, both oral and written, you must have previous glass processing experience and a background of working in a Health and Safety focused business.

*We are an equal opportunities employer and we welcome applications from all suitably qualified persons regardless of their race, sex, disability, religion / belief, sexual orientation or age.*
